W elcome to the CoDA newspaper!

Hello and welcome back to the coda news paper! In this issue we will be talking about six forms, what they mean and why CoDA should be allowed one.

Six Forms are schools you can go to after you graduate from secondary school. They allow you to get into college and university. As from this information, I'm sure you can tell how important these are to us students.

City of derby academy does not currently have a Six Form and the closest one available is in Littleover Community School, which is 1 hour and 6 minutes by foot from CoDA. I'm sure not many of you would want to walk that far everyday.

Our school needs special permission to get this very much needed Six Form. We need this topic to be discussed amongst students and teachers alike to get this to happen.

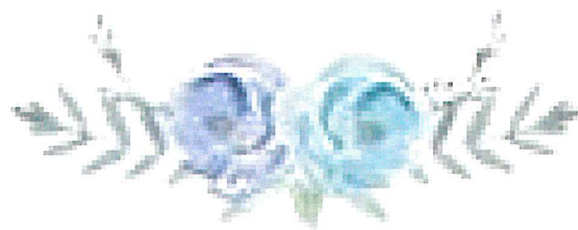

Also remember that we are also now accepting new members to the newspaper team. We are in the library every day after school until 3 o'clock so if you are interested make sure to drop by! You don't have to attend every day you can come and go whenever you please.

We hope you all enjoy the newspaper, and we all look forward to seeing your ideas soon.

SPORTS

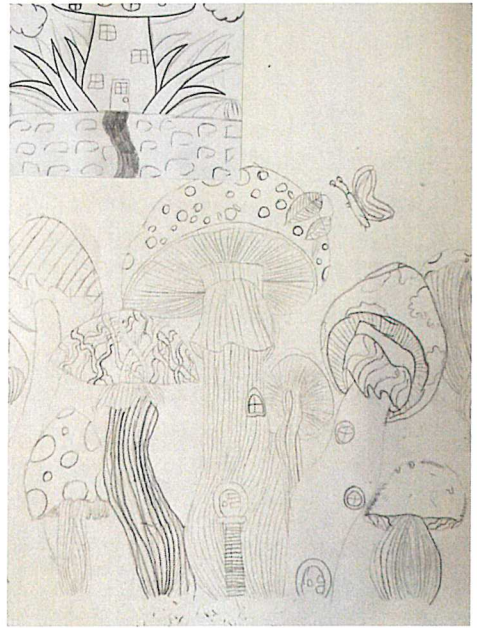

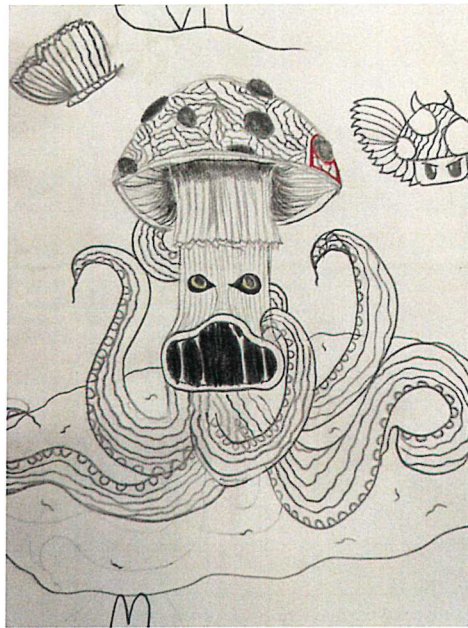

Swimming can be done individually or in teams. There are lots of ways to swim as I am sure you know but some of those ways are: butterfly, backstroke, breaststroke, free style, and individual medley. Swimming each stroke requires lots of specific techniques. Did you know swimmers have to wear specific swimsuits too? otherwise they can be disqualified.

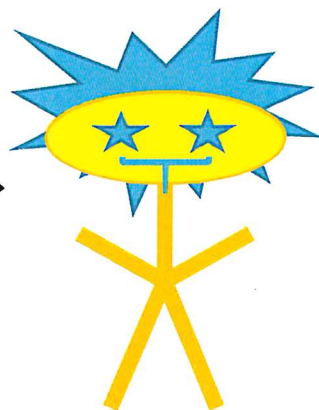

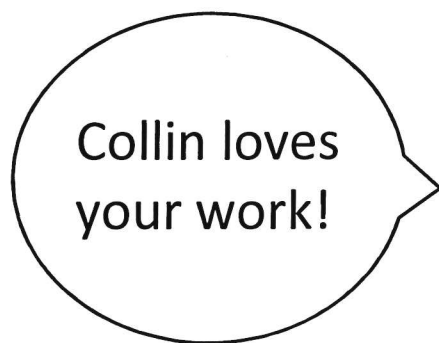

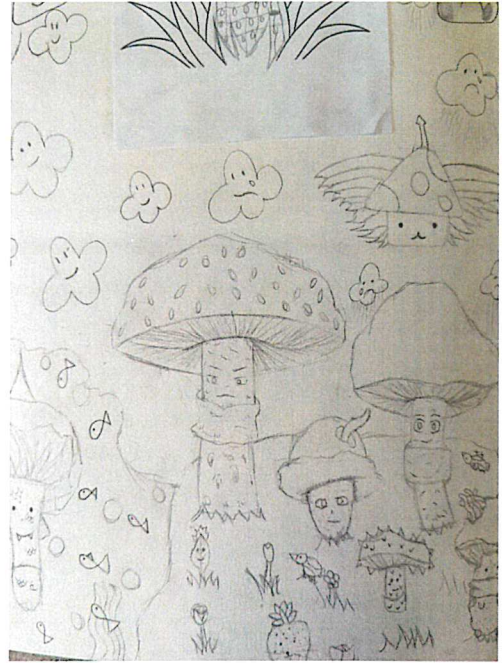

Boxing is where two people fight in a ring that is actually a square. The earliest evidence of boxing rules were found all the way in Ancient Greece, where boxing was an Olympic game in 688 BC. Boxing evolved from 16th- and 18th-century sport to a fight to the death in the mid-19th century with the 1867 introduction of the new Marquess of Queensberry Rules.
