CoDA Year 8 Curriculum

PSHE/RSE

Why Study PSHE-RSE?

Studying KS3 PSHE (Personal, Social, Health and Economic Education) at the City of Derby Academy in Year 7, 8, and 9 is essential for several reasons:

Holistic Development: PSHE covers a wide range of topics essential for personal development, including mental health awareness, healthy relationships, financial literacy, and digital citizenship. By engaging with these topics, students develop into well-rounded individuals equipped with the knowledge and skills necessary to navigate various aspects of life.

Preparation for Challenges: Adolescence is a period of significant change and challenges. PSHE provides students with tools to cope with these challenges, such as stress management techniques, assertive communication skills, and strategies for making informed decisions.

Building Resilience: Through PSHE, students learn resilience-building strategies, enabling them to bounce back from setbacks, manage adversity, and maintain positive mental well-being. This resilience is invaluable in both academic and personal contexts.

Promoting Healthy Relationships: PSHE-RSE (Relationships and Sex Education) equips students with the knowledge and understanding to develop and maintain healthy relationships. They learn about consent, boundaries, and respect, empowering them to navigate friendships, romantic relationships, and online interactions safely and respectfully.

Empowering Decision-Making: By exploring topics such as financial decision-making, risk assessment, and critical thinking, PSHE empowers students to make informed choices that align with their values and goals. This ability to make sound decisions is crucial for success in various aspects of life.

Preparation for the Future: PSHE provides students with essential life skills that are applicable beyond the classroom. Whether it's managing finances, communicating effectively, or maintaining physical and mental well-being, the knowledge and skills gained in PSHE are relevant throughout life.

Overall, studying PSHE at the City of Derby Academy in Year 7, 8, and 9 is not only beneficial but also essential for students' personal growth, well-being, and future success. It equips them with the tools they need to thrive academically, socially, and emotionally, both now and in the years to come.

Year 8 PSHE-RSE Curriculum.

Intent:

Building upon the foundational knowledge and skills acquired in Year 7, the Year 8 PSHE curriculum at the City of Derby Academy aims to deepen students' understanding of themselves, their relationships, and the world around them. Through a comprehensive exploration of health and well-being, relationships, and living in the wider world, our curriculum is designed to empower students to make informed decisions, challenge societal norms, and navigate complex issues with confidence and resilience.

Implementation:

The Year 8 PSHE curriculum comprises one hour per week, allowing for in-depth exploration and discussion of key topics over six-week blocks throughout the academic year. The topics covered include:

- Health & well-being: Addressing the risks and consequences of alcohol and drug misuse, fostering responsible decision-making, and promoting positive social norms and attitudes.
- Living in the wider world: Exploring community and career opportunities, challenging stereotypes and discrimination in life choices and workplaces, and setting aspirational goals for future careers.
- Relationships: Examining discrimination in all its forms, promoting inclusion, and equipping students with strategies to challenge prejudice and support others.
- Health & well-being: Delving into mental health and emotional well-being, body image, and coping strategies to manage daily challenges effectively.
- Relationships: Exploring identity and relationships, including gender identity, sexual orientation, consent, and the responsible use of contraception.
- Living in the wider world: Enhancing digital literacy skills, promoting online safety, critical media literacy, and financial decision-making in the digital age.

Lessons are delivered by form tutors in tutor group classrooms, utilising bespoke booklets tailored to the school's needs. The spiral curriculum approach ensures that key concepts are revisited and built upon, allowing for deeper understanding and skill development over time.

Operational oversight of the PSHE curriculum rests with Maggie McQuilton, while strategic direction is provided by Russ McKee, ensuring alignment with the school's broader educational objectives and continuous improvement through regular review and evaluation.

Impact:

The impact of our Year 8 PSHE curriculum is evident in the holistic development and well-being of our students. Through regular assessment and monitoring, we observe students acquiring essential life skills, such as critical thinking, empathy, and effective communication. By addressing key topics relevant to their stage of development, students gain practical knowledge and confidence to navigate various aspects of their lives successfully.

Furthermore, through ongoing evaluation of student feedback, parental engagement, and academic performance data, we continuously strive to enhance the effectiveness of our curriculum in achieving its intended outcomes. Students will gather evidence of their learning in bespoke booklets that meet the school's needs and work towards accreditation from the AQA Unit Award Scheme.

Our commitment to providing a comprehensive PSHE curriculum ensures that every Year 8 student has the opportunity to thrive academically, socially, and emotionally, preparing them for the challenges and opportunities that lie ahead.

City of Derby PSHE-RSE Education Thematic Overview.

	Autumn 1	Autumn 2	Spring 1	Spring 2	Summer 1	Summer 2
	(6 Week Block)	(6 Week Block)	(6 Week Block)	(6 Week Block)	(6 Week Block)	(6 Week Block)
	Health & wellbeing	Living in the wider world	Relationships	Health & wellbeing	Relationships	Living in the wider world
	Transition and safety.	Developing skills and	<u>Diversity.</u>	Health and puberty.	Building relationships.	Financial decision making.
Year 7	Transition to secondary school and personal safety in and outside school, including first aid.	aspirations. Careers, teamwork and enterprise skills, and raising aspirations.	Diversity, prejudice, and bullying.	Healthy routines, influences on health, puberty, unwanted contact, and FGM.	Self-worth, romance and friendships (including online) and relationship boundaries.	Saving, borrowing, budgeting and making financial choices.
	Drugs and alcohol.	Community and careers.	Discrimination.	Emotional wellbeing.	Identity and relationships.	Digital literacy.
Year 8	Alcohol and drug misuse and pressures relating to drug use.	Equality of opportunity in careers and life choices, and different types and patterns of work.	Discrimination in all its forms, including: racism, religious discrimination, disability, discrimination, sexism, homophobia, biphobia and transphobia.	Mental health and emotional wellbeing, including body image and coping strategies.	Gender identity, sexual orientation, consent, 'sexting', and an introduction to contraception.	Online safety, digital literacy, media reliability, and gambling hooks.
Year 9	Peer influence, substance use and gangs. Healthy and unhealthy friendships, assertiveness, substance misuse, and gang exploitation.	Setting goals Learning strengths, career options and goal setting as part of the GCSE options process.	Respectful relationships. Families and parenting, healthy relationships, conflict resolution, and relationship changes.	Healthy lifestyle. Diet, exercise, lifestyle balance and healthy choices, and first aid.	Intimate relationships. Relationships and sex education including consent, contraception, the risks of STIs, and attitudes to pornography.	Employability skills. Employability and online presence.
	Mental health.	Financial decision making.	Healthy relationships.	Exploring influence.	Addressing extremism and	Work experience.
Year 10	Mental health and ill health, stigma, safeguarding health, including during periods of transition or change.	The impact of financial decisions, debt, gambling and the impact of advertising on financial choices.	Relationships and sex expectations, pleasure and challenges, including the impact of the media and pornography.	The influence and impact of drugs, gangs, role models and the media.	radicalisation. Communities, belonging and challenging extremism.	Preparation for and evaluation of work experience and readiness for work.
Year 11	Building for the future. Self-efficacy, stress management, and future opportunities.	Next steps. Application processes, and skills for further education, employment and career progression	Communication in relationships. Personal values, assertive communication (including in relation to contraception and sexual health), relationship challenges and abuse	Independence. Responsible health choices, and safety in independent contexts	Pamilies. Different families and parental responsibilities, pregnancy, marriage and forced marriage and changing relationships

Career Links (Employability Skills, Career Opportunities) In Year 8, students continue their journey towards understanding themselves and the world of work, exploring a diverse range of careers and developing essential employability skills. Thematic units like "Health and Wellbeing - Alcohol and Drug Misuse" and "Living in the Wider World - Getting on in Life, Career, and Lifestyle Choices" provide insights into various professions and the skills needed for success. From substance misuse outreach workers to equalities officers, students not only learn about specific career paths but also explore academic and vocational routes available to them. Moreover, they develop crucial skills such as critical thinking, communication, and goal-setting, essential for thriving in both personal and professional spheres.

In Year 8, students delve into diverse career paths while honing essential employability skills. Each half-term is dedicated to understanding specific careers and the skills needed for success:

Autumn 1 (Health and Wellbeing Career Focus): Students explore the role of substance misuse outreach workers, emphasising understanding substance misuse issues and developing strategies for support and intervention. Autumn 2 (Living in the Wider World - Careers and Equality): The focus shifts to careers such as equalities officers, highlighting the importance of promoting equality, challenging stereotypes, and creating inclusive environments. Spring 1 (Relationships - Discrimination in All Its Forms): Career exploration includes roles such as human resources officers, emphasising the importance of promoting diversity, tackling discrimination, and fostering inclusive workplaces. Spring 2 (Health and Wellbeing - Mental Health and Emotional Wellbeing): The spotlight is on the career of mental health nurses, emphasising empathy, resilience, and effective communication in supporting individuals' mental health. Summer 1 (Relationships - Identity and Relationships): Career discussions will include roles like victim care officers, focusing on supporting individuals affected by various forms of discrimination and violence. Summer 2 (Living in the Wider World - Digital Literacy): Students explore careers in web development, highlighting skills in digital communication, critical thinking, and online safety. Year 8 curriculum continues to prioritise holistic development, integrating spiritual, moral, social, and cultural dimensions into various learning experiences. Themes like discrimination, equality, mental health, and digital literacy foster students' understanding of themselves and others, promoting empathy, resilience, and critical thinking. Through discussions, role-plays, and real-world applications, students not only develop their own character but also learn to advocate for positive change and contribute meaningfully to society. Identified below are the areas of particular focus: Spiritual: Themes of personal identity, self-worth, and transitions foster spiritual development. Autumn 1: Exploring personal identity and understanding substance misuse issues. Spring 1: Understanding identity, diversity, and promoting inclusion. Moral: Discussions on equality, justice, and ethical decision-making promote moral development. Autumn 2: Learning about equality of opportunity and challenging stereotypes. **SMSC Links** Spring 2: Understanding rights, responsibilities, and promoting respect for diversity. Social: Activities promoting empathy, teamwork, and advocacy enhance social development. Spring 1: Role-plays demonstrating support for victims of discrimination and promoting inclusive practices. Summer 1: Learning about positive relationships and promoting empathy in diverse contexts. Cultural: Exploring diversity, cultural awareness, and inclusive practices fosters cultural development. Autumn 2: Challenging stereotypes and promoting inclusive environments in career choices. Summer 2: Understanding cultural influences on digital communication and promoting responsible online behavior. By integrating career exploration with SMSC development, Year 8 curriculum provides a comprehensive educational experience that prepares students for both personal growth and future career pathways. Year 8 serves as a crucial stage for students to further explore their interests, values, and responsibilities, empowering them to make informed decisions and contribute positively to their communities.
